

- 105 Rose Quartz Needle Book  
Technique is Counted Thread  
Kit cost is \$55.00  
Student Level: Intermediate  
Teacher: *Denise Harrington Pratt*

This lovely little needle book is a delight to stitch and to look at. The focal point is a rose quartz cabochon stitched on with detached buttonhole. A variety of additional stitches adorn the front of the needle book. The fobs use a variety of stitches and are finished with bead fringe. Students will learn the cabochon technique along with several specialty stitches. The fobs will also be worked on in class with some students completing the mini fob. Cording will be made for use on the bobs. The goal of this class is for an enjoyable class experience with the student learning new stitches and techniques. When completed the student will have a delightful heirloom to treasure for years to come.
